#### PROBOND DENTSPLY

*ProBOND Bonding agent is a two-component, no-mix bonding agent. It is simple to use and provides strong bond strengths to dentin, metals, enamel, porcelain and amalgam.*

- **Standard Pkg:** 6 ml Primer, 6 ml Adhesive, Brush Handle, 80 Disposable Brush Tips, Mixing Pad
  - Primer, 6 ml
  - Adhesive, 6 ml

#### RIVA BOND LC CAPSULES

*Riva Bond LC is the next generation of adhesives. The high bond strengths significantly reduce stress at the restorative interface. Best of all, with Riva Bond LC capsules your composite restorations will be long lasting.*

- **50/Box**
  - 8672336

#### SCOTCHBOND DUAL-CURE ADHESIVE

**3M**

*Scotchbond Universal Etchant is a 35% phosphoric etchant liquid gel which is used to etch enamel and/or dentin as indicated in the instructions provided with the various dental adhesive systems.*

- **Gel, 9 ml**
  - 8672260

#### SILANE BOND ENHANCER

**PULPDENT**

Silane Bond Enhancer is for bonding composites and resin cements to porcelain. This single component material increases the bond strength of organic resins, such as composites and resin cements, to porcelain. Apply Silane to the etched and dried porcelain surface. Conveniently dispenses one drop at a time from the syringe.

- **1.2 ml, 4/Box**
  - 8790702

#### SYNTAC

**IVOCLAR VIVADENT**

Syntac is the classic bonding agent for a sound chemical bond between composite material and tooth structure. It has a high
