**Palodent Plus Sectional Matrix System**

**Dentsply**

The Palodent Plus Sectional Matrix System is specifically designed to give you confidence in the contacts you create. Every component is optimized for ease of use and performance. The result is an accurate system with consistent results. With Palodent Plus, enjoy wide applications for sectional matrix system use and the ability to complete multiple restorations simultaneously. The super-elastic nickel titanium retaining rings can be used on significantly damaged teeth, even when a cusp is missing, and maintain a fit on the tooth that complements the wedge and minimizes flash and required finishing.

**Introductory Kit:** Universal Ring, Narrow Ring, 100 Matrices (20 each of size: 3.5 mm, 4.5 mm, 5.5 mm, 6.5 mm and 7.5 mm), 75 Wedges (25 each of size: Small, Medium and Large), 30 Wedge Guards (10 each size: Small, Medium, and Large), Forceps and Pin Tweezers
