No maintenance.

Save money

As little as \$2.25 per patient.
No up front cost.

Create happiness

Comfortable patient.
Happy dental team.

Save time

Save money

Create happiness

100% fully disposable

mr. thirsty® one-step benefits everyone! Here's how...

PATIENT

Improved patient safety. **Mouthpiece acts as a shield to airway.**
Improved patient comfort. **Bite block allows jaw to rest** and continual suction **keeps airway free from saliva and debris.** mr. thirsty® one-step is colorful and fun; looking nonthreatening.

DOCTOR

Provides a dry work environment giving a clear, unobstructed view.
Your Assistant is a revenue generator. When only suction is needed, leave it to mr. thirsty®. **The Assistant can increase production** and revenue doing other important tasks such as: taking x-rays, bleaching, placing composite resins, taking digital impressions, treatment planning, etc.

ASSISTANT

Suction is no longer your main tool. mr. thirsty® one-step **allows you to better assist the doctor and perform other revenue-generating duties** (see above). What's more? With the extra free time, you could get the next operatory ready, manage sterilization, or spend time on patient education.

HYGIENIST

Work efficiently by not stopping repeatedly to use the saliva ejector.
Bite block **keeps the patient's mouth open** during procedures.
Manages patients tongue for a **less obstructed view.**

No post-procedure processing! 100% Disposable!

Trial Kit (10pk)
6070008 (50Z987)
Includes 5 of each size:
purple (5) Pedo/Small Adult & (5) Medium/Large
blue

25 pks
purple 6070000 (50Z298SM) Pedo/ Small Adult
blue 6070002 (50Z298LG) Medium/Large

100 pks
purple 6070004 (50Z298SMB) Pedo/Small Adult
blue 6070006 (50Z298LGB) Medium/Large

Comfort Kit

6070012 (50Z992)
(1) Rotary Plastic HVE Valve
(1) 6' lightweight tubing
Its lightweight tubing and flow-control valve makes mr. thirsty® one-step, or existing HVE, more comfortable for the patient by reducing the amount of weight near the mouth.
